They were fitted from 1929 until 1933 when the body material was changed to zinc die cast alloy and the model numbers were modified to types 74, 75, 76, and 89. They can be distinguished from the later types because these have four air holes around the base of the body which the next type does not. In 1939 types 274, 275, 276 and 289 were

introduced; these have two internal primary air ...
