American sociologist Michael Kimmel categorized American male responses to feminism at the turn of the twentieth century into three categories: pro-feminist, masculinist, and antifeminist. Pro-feminist men, believing that changes would also benefit men, generally welcomed women's increased participation in the public sphere, and changes in the division of labour in the home; in contrast anti ...

The second, more important challenge was to key assumptions about the hunting way of life. Archaeological and paleontological fossil evidence and ethnographic data from contemporary foragers revealed that hunting and meat it provided were not the primary subsistence mode. Instead, gathered foods such as plants, nuts, fruits, roots and small fish found in rivers and ponds constituted the bulk ...

Black Womanhood, Gendered Violence, and Mass Incarceration. Beth Richie's book on black women and incarceration notes that the second most common cause of death for black women and girls between the ages of 15 and 25 was homicide, primarily caused by intimate-partner violence. Given the ominous statistics about black men and violent death ...
